Your Bridge to Communication

Resume Writing and Correction Service

More and more, those in their 20's and 30's who want to be challenged and receive corresponding compensation are looking toward foreign firms. But, when it comes to the interviewing process, everyone's common concern is how to get selected. And the big hurdle to overcome is the resume.

DUDULA offers college graduates and those conducting an internship, assistance in writing your English resume to pursue job and career opportunities at foreign firms. There is a big difference between Japanese resumes and English resumes. A Japanese resume that is directly translated into English will not tell the true story of your work and academic experience. That is why DUDULA offers a good strategy with a professional written resume.

Our very experienced consultants who hold a Master of Business Administration (MBA) degree, counsel you to discover your sales points and create a winning resume for you. Finally, we improve your chances of success by also offering tips on the interview process.

The entire process is conducted with a native English speaker so you get to practice your listening and speaking skills before the real test.

DUDULA will send you a great resume after correcting for errors in grammar and modifying the resume to make an impact. We promise to deliver a creative and charismatic resume based on the information you give us.
