

Your Bridge to Communication

Active Discussion

This course led by a native English speaking professional will help you improve your ability to actively participate in a discussion.

You will be trained to positively discuss business related topics in a small group, so you can effectively use English when in an international job or working in a foreign company.

This is for professionals who want to be able to debate in English and increase their English speaking ability in the areas of politics and international business. This training actively uses English led by native speaker to increase your ability according to your needs and objectives.

Program Characteristics

- DUDULA created workbooks
- Weekly study pointers and level checks
- We only use native English instructors
- Custom curriculum based on vocabulary used by professionals in industry
- Learn specific vocabulary that will help you negotiate with foreign companies
- Increase your ability to communicate your opinion during a conversation

Sample Topics

- Finance and Economic Policy
- Product/Service End of Life
- Improvement plans to increase customer satisfaction
- Effect on the environment when increasing factory size
