

IMPACT

Presentations

TIMING

- Improve your ability to time the impact of your presentation when presenting in English.

TECHNIQUE

- Use techniques that will differentiate you from the competition and increase your selling ability.

POWERING UP NOW!

TONE

- Enhance your ability to communicate in English by changing your tone of voice according to the conditions and articulating the correct words.

TOOLS

- Use tools in addition to Power Point to effectively convey your point and increase your value to the organization as a powerful weapon.

Videos, CD's and books are effective aids to improve your presentation skills, but they aren't enough.

You need specialized training that teaches you how to present in English to an English speaking audience by perfecting your speaking capability and your body movements.

Impact Presentations native English speaking instructors have experience in presenting to a wide range of audiences and will teach you how to improve your presentation skills. You'll be able to clearly and smoothly express your point in one-on-one and group presentations using effective tools and techniques.

For anyone in sales, management, engineering and human resources presenting to an English speaking audience on activities like sales, marketing, and project management.
